**PRESS RELEASE**

**FOR IMMEDIATE RELEASE**

**Reeves Information Technology Moves to New Greenville Location**

Greenville, Pa. (May 29, 2009) – Reeves Information Technology moved to a new location at 316 Hadley Road in Greenville on May 26<sup>th</sup>. The new facility allows the growing full-service information technology business to better accommodate the needs of its customers, while offering the room necessary for continued expansion.

Owned and operated by David and Lori Reeves of Greenville, Reeves Information Technology was previously located at the McNeilly Business Center, 12 N. Diamond Street in Greenville since its opening in May of 2005.

The staff of Reeves Information Technology provides more than 50 years combined information technology experience. Services available include all areas of technology for business and individuals – from computer sales, installation and set-up to large scale network administration, web site design, web hosting, video surveillance and computer recycling.

“Our mission is to provide the kind of quality and service you expect from a leader in the industry,” says David Reeves. “Our company is always evolving as the needs of our customers change and as opportunities develop in the market. Reeves Information Technology will always provide the latest services, technology solutions and developments in the industry at a very competitive cost.”

Lori Reeves points out that cultivating a close relationship with each of their clients is what sets Reeves Information Technology apart from its competitors: “We make it our responsibility to know you and your business. We work closely with you to ensure that the solutions we provide are tailored to meet your unique needs and challenges. We are committed to your success.”

The Reeves credit the Greenville Area Economic Development Corporation and its “business incubator” model for giving their company the opportunity to grow. The primary purpose of the corporation is to help the development of new business start-ups and assist in the retention of existing businesses.
